

CACI

our values

How we work and succeed together at CACI.

We share a set of values that we live by and work by.

They set us apart from other companies and help us do better business. So they're key to helping CACI succeed and grow.

You're part of our team and the way you do things makes a difference to what our clients and partners think of us.

That's how you directly influence our current and future business success. When CACI prospers, so do all our employees. It's a good way of working for everyone.

This way... to our values

1.

CLIENTS RULE

Our clients are front and centre of everything we do. Without their business, we have no business. They rightly demand the best – so we need to be the best.

Being the best is firmly working in our clients' best interests and doing what we say, when we say.

2.

FUELLED BY TALENT

Our people are the powerhouse behind our success. So we notice, celebrate and reward individual and team commitment, talent and sheer hard work.

We cheer each other on and have fun working and succeeding together.

3.

GROWING PROFITABLY TOGETHER

Everyone plays a part in expanding our company and making sure our business is profitable.

We do more business and make more profit so we can invest in more growth and more for our people. It's a virtuous circle.

4.

INNOVATION IS SMART

We look for smart ways to help ourselves and our clients work better and smarter.

This means taking an entrepreneurial approach to solving problems and seeking out new and creative tech and ideas.

5.

APPRECIATE EVERYONE

In our words and actions, we treat everyone with courtesy and respect – clients, suppliers and colleagues alike.

This creates an atmosphere and culture where we're all proud and pleased to work.

DO THE RIGHT THING

The thread that binds our values together is our dogged determination to always do the right thing.

If we see situations that are wrong, unfair or broken, we challenge and fix them. No buts.
